**For any additional information or concerns
please contact us or ask your service
technician.**

**If you or someone you know is sensitive to
chemical odors please contact us and let
us know.**

Please be sure to prep your home! We can
only guarantee your home will be bug free if
you follow all of our instructions.

Before Treatment

- Clean kitchen thoroughly: floors, walls, cabinets, sink, stove, refrigerator, microwave, etc.
- Clean bathroom thoroughly: floors, walls, cabinets, sink, toilet, etc.
- Empty **ALL** cabinets. Nothing should be inside cabinets.
- Clear **ALL** counters. Nothing should be placed on the counter.
- Place all dishes and food products onto dining room table. **Be sure to cover it with a sheet.**
- Pull out stove and refrigerator. (If capable.)
- Move **ALL** furniture slightly away from the walls.
- **NO** pets or people should be present at home during treatment.

After Treatment

DO NOT enter home until **4 hours** after service. If the chemical smell persists, open windows around the home. If the smell is too strong, give it up to 6 hours before re-entering.

Thoroughly clean all food surfaces such as the dinner table and counter top. Clean all silverware and dishes. Avoid cleaning baseboards and cabinets for maximum service.

KEEP HOME CLEAN IN BETWEEN

SERVICES! Sanitation is the most important step in battling a roach infestation. Do not let excess food and water accumulate around the home.
