

## When you want the *BEST*

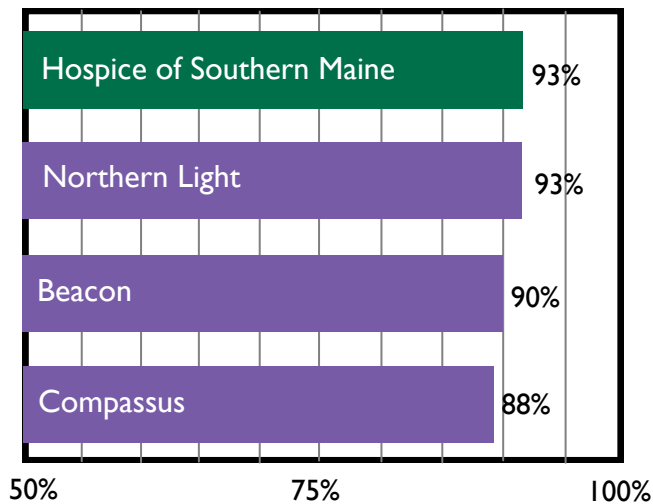

Families who recommend this hospice

Helped with pain and symptoms

Treated patient with respect

*"Ian was a physician, and wanted to die at home. Hospice of Southern Maine helped me keep that promise."*  
— Judy M., June 2019

*"From the time we entered Gosnell, until the moment we left, we were all very well cared for. Our mom was treated with respect and we were all treated so kindly as we were a large group of family and friends in various stages of acceptance. It was a great relief to be somewhere that was staffed by such competent, compassionate and caring individuals.. Thank you."*
