

# 2020 Education Symposium

December 3-4, 2020

## Sponsorship Opportunities

This December, Educate Maine is bringing together hundreds of educators, business and civic leaders, policymakers, national thought leaders, and diverse individuals from across our state's institutions and communities. We will come together to share in-depth knowledge, innovative ideas, and timely strategies for helping all Maine people reach their highest educational potential.

We've planned two days of informative breakout sessions, inspiring keynote speakers, and educator recognition that highlight the great work Maine is doing to educate all of our citizens - from cradle to career - and what actions we can take to strengthen our educational pipeline.

New this year Educate Maine will host a pre-conference event on December 3rd focused on social and emotional learning and equity.
