Kayla York, Secretary

March 19, 2020

Dear Rangeley Residents:

I'd first like to point out all the things that you already know but may not have thought about. We are a travel and tourism destination. We enjoy hundreds of second homeowners who are in some instances family and all instances friends. And with this traveling public, we are faced with a number of unknowns. As we move through this very fluid process of managing COVID-19, we have potentially been subjected to people who are either carriers or may have the virus. If you are coming from away to be here in Rangeley PLEASE be aware of your surroundings, your neighbors, your loved ones and if you feel you have been exposed, self-quarantine. We all have a responsibility for looking out for each other. Stay calm, make phone calls, read, educate and wash your hands. I am going to continue to be in touch with you, hopefully daily, to keep you up to speed. Please don't hesitate to call with questions or concerns. The Chief of Police (207) 864-3187 Fire Chief (207)864-3800 and myself (207)557-0743 are available to you whenever you need us.

Your safety is our concern and the safety of Rangeley and the surrounding region is everyone's concern.

Sincerely,
Stephen C. Philbrick
Chairman of Selectmen
