Who, What, Where & When

WELCOME - The Rangeley Lakes Region is a vast area. Within its borders lie hundreds of square miles of unrivaled beauty - beauty in the grandeur of its many large lakes, the calm stillness of hundreds of small lakes and ponds- 111 in all- and the majesty of its evergreen-clad mountains. Here, you will find one of the few areas where you can enjoy the high altitude, clean cool air, and other advantages of a mountain vacation combined with the pleasure of all water and winter sports. The unparalleled variety of play in the Rangeley Lakes Region makes it unexcelled as a vacation destination.

Encompassed in the Rangeley Lakes Region are the towns of Dallas Plantation, Rangeley Plantation, Sandy River Plantation, Oquossoc and Rangeley. Each of these has at some time over the past 150 years attained prominence. Today each contributes its share of scenic spots and interesting trails to guide visitors in their quest for a unique and restful sojourn from city living.

More details and many interesting facts relating to the history of the region may be obtained from your host, local residents and various publications. This brochure is simply intended to assist you with information about the area's many activities, services, scenic splendors and where to find them.
