Project Title: Assessor's Office Revaluation

Department: Assessor's Office

Author: Joshua Steele Kelly, Town Administrator

Description, Purpose, and Projected Useful Life:

Every five years, the Town undergoes a total revaluation of the many parcels of private property across Bolton. The costs for this can be considerable when they are all placed as a burden on the taxpayers in a single year. Therefore, in 2021, it was decided by the Board of Selectmen that these costs should be capitalized and that a much smaller amount of money should be allocated to the process of Revaluation each year so that there is never a singular, major spike in the taxpayer contribution to Revaluation processes. \$25,000 in FY 2022 and \$20,000 in FY 2023 will cover the costs of the upcoming FY 2023 Revaluation, and an allocation of ~\$9,000 (2021 dollars) each year thereafter will help to cover the costs of the next Revaluation.

Project Title: Buildings & Grounds Pickup Truck

Department: **Buildings & Grounds**

Author: John Butrymovich, Director of Buildings & Grounds

Description, Purpose, and Projected Useful Life: FY 2022 CIP - Item #1

The trucks are on a 10-year replacement cycle to keep maintenance costs down and to maintain reliability. The 3/4-ton pickup with plow and life gate will be due to be replaced in FY 2022, and the 1-ton pickup with plow will be due to be replaced in FY 2026.

Project Title: Firehouse Engine Truck 334 Replacement

Department: Fire Commission

Author: Bruce Dixon, Fire Chief

Description, Purpose, and Projected Useful Life: FY 2022 CIP - Item #4

Your 1993 Engine Tank 334 has a six person cab, 1,000 gallons of water, 1,500 GPM water pump. It was refurbished in 2013 with the mind set that we could get another 10 years of use from this emergency vehicle. Since that time, we have replace the tires, hose, and rebuild some of the water pump due to corrossion issues. Replacement parts are getting harder to find. The projected replacement schedule will make your front line, first due emergency fire truck 30 years old. Fifty thousand dollars a year has been directed towards this project for several years already.

Project Title: Firehouse Expansion

Department: Fire Commission

Author: Fire Commission Chair John Morianos, President Joseph White, and Fire Chief Bruce Dixon

Description, Purpose, and Projected Useful Life:

The first fire house on Notch Road initially had two truck bays in 1941 and additional bays were constructed in the early 1960s, doubling the size of the building. In 1975 a survey to construct a new building was done because of the growth of the town and the fire emergency services. In 1985 a formal plan was completed for this project on Bolton Center Road. Interesting enough, our forefathers had the foresight to include in these plans the need for future expansion. In 1986 the fire department moved from Notch Road into the new fire house on Bolton Center Road. The town increased the bay size from four to three drive thru vehicle bays and increassed safety.

Currently, 34 years later, our existing open space is non-existent. There is a great need for required growth of bay floor space and office area in order to keep up with the pace of the increasing demands of the public, and the primary concern of keeping our volunteers safe in trying to do the job as required by town, state and federal guidelines.

Project Title: Firehouse Radio Communications Upgrade

Department: Fire Commission

Author: Bruce Dixon, Fire Chief

Description, Purpose, and Projected Useful Life:

The purpose of the project is to upgrade our existing, aged communication system to improve on interdepartmental and mutual aid communications as well as personal safety. The Fire Department currently has 46 portable, 31 mobile radios, and a transmitter on the Marcus tower, which we use for emergency and routine communications. This equipment is currently between 11 and 26 years old. The Tolland County Dispatch Center and our mutual aid partners are continuing to upgrade our equopment due to new technology trends in the industry and because radio manufacturers discontinue equipment, parts, and support. The Fire Department currently interacts via radios with the 911 Dispatch Center (TN), 13 nearby Fire Departments, Life Star, Ambulance Service of Manchester (ASM), town services, and the CSP. This upgrade would be timed with major upgrades by the Tolland County Dispatch Center (E9-11 Center), upgrading our communication system to be inline with new county radio technology during daily emergency situations and increasing the chances of your firefighter and support member's safety.

Project Title: Heritage Farm Restoration & Code Compliance

Department: Buildings & Grounds

Author: John Butrymovich, Director of Buildings & Grounds

Description, Purpose, and Projected Useful Life:

For the farmhouse and barn to be used for purposes besides storage, they must be brought up to current building codes.

The Heritage Farm Commission has requested that \$350,000 be appropriated to this end between now and FY 2025.

Project Title: Herrick Park Soccer Fields

Department: Buildings & Grounds

Author: John Butrymovich, Director of Buildings & Grounds

Description, Purpose, and Projected Useful Life:

There is a need for additional playing fields in town. Jacobson & Associates completed a preliminary design for the area across from the playscape at Herrick Park. Their estimate for the project is \$275,000; this proposal funds the project at a rate of \$30,000 per year, starting in FY 2022, until enough funding has been accumulated that the project can be completed.

Project Title: Highway Plow Truck Replacement

Department: Highway Department

Author: Lance Dimock, Highway Supervisor

Description, Purpose, and Projected Useful Life: FY 2022 CIP - Item #13

Truck to replace 2003 Freightliner Dump-Plow Truck. Useful life is 20 years. Funding was started in FY 2020 at the amount of \$65,000. Coupled with two installments of \$70,000 in FY 2021, we will reach our total estimated cost of \$205,000.

Project Title: Senior Center Van

Department: Senior & Social Services

Author: Carrie Concatelli, Director of Senior & Social Services

Description, Purpose, and Projected Useful Life:

Purchase of mini van for the Senior & Social Services Department for use by van drivers and town staff. Currently project 25,000 miles per year for our transportation program. Projected mileage may increase due to demand for senior and disabled transportation increasing in line with demographic projections. Lifeuse of vehicle is 100,000 miles, resulting in the need for a replacement vehicle every 4-5 years with current mileage usage.

Project Title: Town Electric Vehicle Charging Stations

Department: Administration

Author: Joshua Steele Kelly, Town Administrator

Description, Purpose, and Projected Useful Life: FY 2022 CIP - Item #57

As a means of supporting residents who choose to purchase electric-powered vehicles and to increase the ability of non-residents with electric vehicles to easily visit town, the Town seeks to construct two dual-head electric vehicle charging stations. The below cost includes both equipment acquisition and installation. The estimate comes from information taken from similar projects conducted by the Towns of Southington, Bloomfield, and Windsor, CT. The specific location of the installation is unknown at this time, with an evaluation of best-use sites to be conducted by town boards and commissions. Possible sites include the Library, the Senior Center, Herrick Park, or other locations near the Rt 44/Rt 6 business cooridors.

Project Title: Town Hall Facility Expansion

Department: Selectmen's Office

Author: Joshua Steele Kelly, Town Administrator

Description, Purpose, and Projected Useful Life:

The current Town Hall, originally opened in 1914, cannot currently hold all town staff. At the present time, the entire Finance Department, the Treasurer, and both Registrars of Voters are forced to work in the Notch Road Municipal Center due to lack of space in Town Hall, and other members of the town staff are forced to work in temporary rooms and cubicles and take up what would otherwise be more usable meeting space for the people of the town and staff. Furthermore, sections of the Notch Road Municipal Center have become generally unsafe and the structure needs to be demolished, displacing more staff. In order to correct these issues, a new town facility is absolutely essential. There are many ways that new space could be established: an expansion onto the current Town Hall is possible, new town offices on the site of the old Notch Road Municipal Center may be possible, or a new community center may be developed with the idea that the current Senior Center would become town offices. In order to explore all these options, a sum of money has been put away for Planning & Engineering costs associated with this larger project.

Project Title: **Town Hall Sedan**

Department: Selectmen's Office

Author: Joshua Steele Kelly, Town Administrator

Description, Purpose, and Projected Useful Life:

The sedan that operates out of Town Hall, currently a Ford Focus, was set to be replaced in FY 2020, but was moved back to following years due to budget concerns. After considering the large burden on taxpayers in FY 2021 and FY 2022, it is recommended by Town administration that the project be completed in FY 2023.

Project Title: Bolton High School Commons Visual & Lighting Systems Upgrade

Department: Board of Education

Author: John Butrymovich, Director of Buildings & Grounds

Description, Purpose, and Projected Useful Life: FY 2022 CIP - Item #51

The system intalled as a part of the building project was very basic. It is outdated and equipment has to be rented for many events. The proposed upgrades would improve the situation.

Project Title: Bolton High School HVAC Assessment

Department: Board of Education

Author: John Butrymovich, Director of Buildings & Grounds

Description, Purpose, and Projected Useful Life: FY 2022 CIP - Item #52

The HVAC units will be over 15 years old and need to be evaluated and a replacement plan established so that expenses are not all absorbed by the Town at the same time.

Project Title: **Bolton High School HVAC Controllers**

Department: Board of Education

Author: John Butrymovich, Director of Buildings & Grounds

Description, Purpose, and Projected Useful Life: FY 2022 CIP - Item #39

The BCU controllers at the High school are obsolete. Replacement parts are no longer available from the manufacturer. They should be replaced before a failure occurs.

Project Title: Bolton High School HVAC Heat Pumps & Rooftop Units

Department: Board of Education

Author: John Butrymovich, Director of Buildings & Grounds

Description, Purpose, and Projected Useful Life: FY 2022 CIP - Item #53

We anticipate that the HVAC Assessment will recommend replacement of the heat pumps and rooftop units of our High School HVAC system in FY 2026.

Project Title: Bolton High School Soccer Field

Department: Board of Education

Author: John Butrymovich, Director of Buildings & Grounds

Description, Purpose, and Projected Useful Life: FY 2022 CIP - Item #40

The soccer field at the high school is in need of reconstruction. The crown of the field has disappeared. Water no longer drains off. What drainage that was installed no longer works properly. A large number of games must be canceled due to unsafe playing conditions. The drainage system that has been planned for this space would also accommodate the development of a track, which could be used by the whole community and which currently doesn't exist within the confines of Bolton.

Project Title: Bolton High School Storage Garage

Department: Board of Education

Author: John Butrymovich, Director of Buildings & Grounds

Description, Purpose, and Projected Useful Life: FY 2022 CIP - Item #41

There is currently a lack of storage for the district buses and athletic equipment. A three bay storage building is needed.

Project Title: **Board of Education Mower Replacement**

Department: Board of Education

Author: John Butrymovich, Director of Buildings & Grounds

Description, Purpose, and Projected Useful Life: FY 2022 CIP - Item #54

The district has two zero-turn mowers which are in need of replacing.

Project Title: Board of Education Pickup Truck with Plow (2005)

Department: Board of Education

Author: John Butrymovich, Director of Buildings & Grounds

Description, Purpose, and Projected Useful Life: FY 2022 CIP - Item #55

This pickup truck is rusted and it is need of repairs often. It is past its scheduled replacement date.

Project Title: Board of Education Utility Truck with Plow (2005)

Department: Board of Education

Author: John Butrymovich, Director of Buildings & Grounds

Description, Purpose, and Projected Useful Life: FY 2022 CIP - Item #56

The district utility truck is used daily by maintenance personnel and is one of the plow trucks at the High School. It is well past the normal replacement schedule. The body and frame is rusting out, and it needs to be replaced.
