Item #6: Metropolitan Beaches Commission Annual Hearing on October 31, 2023

- **Attended hearing virtually where new DCR Commissioner Brian Arrigo spoke about some initiatives that DCR has begun regarding more informational signage that will be available in multiple languages with the use of QR codes. He also mentioned that they are working to ensure more accessibility for everyone including people with disabilities at public beaches and DCR properties. Revere Beach will have 264 feet of new accessible beach mats so that people with mobility difficulty will be able to go down to the water. I spoke on a few areas of concern that I would like to see DCR address for all public beaches but especially Revere Beach.**
 - **The boulevard needs to have more ASL (Audible Signalization Lights) installed. It is very difficult for anyone to cross the boulevard but especially people with disabilities such as visual impairments.**

- **Although 264 feet of beach accessible mats at Revere Beach is a good start, more are needed. DCR must do a better job of maintaining the mats each day when they rake the sand.**
- **Implement better system for and access to beach mobility chairs along with providing more information on how and where to find them, especially at Revere**
- **Beach. Also make sure there is an adequate supply for use along with providing a way for people to safely store their wheelchair or scooter if applicable.**
- **DCR should look at ways to create a family/quiet area on public beaches or properties to accommodate families especially those with disabilities. This is done at various sports venues throughout the county.**
