INSTRUCTIONS & REQUIREMENTS FOR CONSIDERATION TO BE ADDED TO THE CITY OF REVERE APPROVED DRAIN LAYERS LIST

1. Provide a letter on the company's letterhead requesting to be added to the cities drain layer list.
2. Provide three letters of recommendation* (Cities/Towns recommendations preferred)
3. Provide a \$10,000.00 street and sidewalk bond to be made out to The **City of Revere**. Please Note: The original bond with a raised seal will be mandatory.
4. A Certificate of Insurance must be provided, which covers workers compensation and general liability coverage of minimum of \$100,000 per person and a minimum \$300,000 per claim *or* provide evidence of self-insurance in equal amounts.
5. Provide a list of employees(s) with a hoisting equipment license and a copy of each employee(s) hoisting equipment license, front and back. This will be mandatory for every employee holding such a license.
6. It is mandatory that each contractor/drain layer post an "A frame" standing sign on each side of the street opening site. The sign will need to have the company's name and phone number on each side of "A" frame sign stand. Please provide a picture of your company's A frame sign
7. It is a requirement for every drain layer to place plastic utility markers for every trench completed. Utility markers are to be green. They will also need your company name and year on each marker. Please provide a picture and/or the actual plastic marker.
8. Please make check payable to the **City of Revere**:
 - a. \$275.00 if company located in The City of Revere
 - b. \$375.00 if company is located outside the City of Revere

**Not required if renewal from last year.*

City of Revere Guidelines for Water and Sewer Connections

All Materials excavated, must be removed from site. This material is not allowed as fill. Non-metallic warning tape is required at 24" above utilities.

All Backfill shall be reprocessed or suitable. This determination shall be made by the City of Revere. Backfill shall be compacted in eight-inch (8") lifts. Water utilities shall be in clean sand.

All main road trenches shall be backfilled with flowable fill and suitable material surrounding pipe. Sewer/Drain utilities shall be bed in $\frac{3}{4}$ " (max) crushed stone.

All new homes must use a minimum of at least one inch (1") K cooper.

Townhouse style homes must have separate water and sewer lines. 10 feet for non-like trenches.

When new service lines are being installed, the taps are required to be a minimum of two feet (2') apart.

Separate water and sewer trenches must be five feet (5') apart; for non-like trenches must be 10' feet apart.

On all live taps up to and including 2 inches are allowed above most cut in with fitting on the main line, the pipe size must be at least one size larger than that tap size.

Water lines must be at least five feet (5') deep.

Pertaining to water service, all lead must be removed to the main.

Water meter must be located within five feet (5') of the footprint of the building.

Sewer lines must be a minimum of four-inch (4") PVC; six inch (6") where the main can accommodate it.

All unlined sewer main connections are required to have a Tee/Y cut in and a lined main is to have an insert-tee connection installed.

When hooking up to an existing sewer line, the contractor is responsible for the condition of the pipe to the main. If questionable, automatic replacement is required.

All water service shut off boxes must be placed in the middle of sidewalk for any and all construction. The water box must be always clear and accessible.

dciaramella@revere.org

All or any constructed, reconstructed, or rehabilitated roadway that has been constructed or rehabilitated within the past five (5) years is mandated by the City of Revere to have infrared paving.

It is mandatory that each contractor/drain layer post an “A frame” standing sign on each side of the street opening site. The sign will need to have the company’s name and phone number on each side of “A” frame sign stand

It is a requirement for every drain layer to place plastic utility markers for every trench completed. Utility markers are to be the color Green. They will also need your company name and year on each marker.

The contractor is responsible for submitting, in writing, all ties to all water and sewer lines, including connection to the curb box. This information shall be filed with the Water/Sewer Billing office at City Hall.

The drain layer (contractor) is responsible for providing a safe working environment for its workers, inspectors, and the public and shall comply with all city, state, federal including OSHA safety regulations.

NICHOLAS J. RYSTROM

City Engineer

Proposed site plans are required for all construction (new AND redeveloped) projects prior to City Engineer approval and permit issuance. This is a proposed site plan and should be treated as an existing condition, detailed survey plan, overlaid with all proposed development and modifications. The requirements of said site plan are as follows:

- 1.) Comply with the *Zoning Ordinances of the City of Revere, Section 17.17.050 "Materials for Review"* and the *City of Revere Rules & Regulations Governing the Subdivision of Land, Section 4 "Definitive Plan"*
- 2.) Show to considerable detail all that is proposed to be constructed
- 3.) All plans shall be prepared with drafting software (AutoCAD or other), **NO SKETCHES**
- 4.) All plans shall be prepared at 40 scale (engineering, 1" = 40') or other, approved by the City Engineer and on sheets NO BIGGER than 24" x 36"
- 5.) Provide locations of all underground utility services
- 6.) Provide locations of all relevant utility structures (CBs, MHs, etc.), including rim and invert elevations
- 7.) Provide size and material for all underground utilities, including both main lines and service lines
- 8.) Show proposed utility service penetration locations with dimensions along the foundation
- 9.) Show foundation dimensions and closest offset to each property line
- 10.) Provide top of foundation elevation
- 11.) Provide reference to vertical datum
- 12.) Provide existing and proposed site topography and distinguish between the two
- 13.) Provide reference to horizontal datum - coordinates of two lot corners or tie to two local permanent monuments
- 14.) Provide parcel ID, street address, and any previous lot designations
- 15.) Provide relevant information for direct abutters (now/formerly, parcel ID, etc.) as well as any relevant adjacent structures
- 16.) Show bearings and distances of all site property lines and related rights of way, accurate to 1/100 of a second and 1/100 of a foot
- 17.) Show all driveways, decks, porches, pavement, grassed areas, landscaping, trees in excess of 4" dia., retaining walls, etc.
- 18.) Show light poles, signs, utility poles, pavement markings, parking meters, etc.
- 19.) Provide a zoning bulk table showing required and proposed zoning information (zoning district, offsets, required open space, etc.)
- 20.) Show any/all existing and proposed easements
- 21.) List any/all variances, special permits, or waivers on the plan(s) as well as evidence that any of such have been obtained
- 22.) Provide all other measurements accurate to 1/10 of a foot
- 23.) Provide a north arrow (specify true or magnetic)
- 24.) Plan shall be wet stamped, signed and dated by a registered PLS and PE
- 25.) Perform a deep hole excavation at the approximate center of the proposed foundation and provide the results of a soil evaluation performed by a State licensed soil evaluator. Evaluation should include but not be limited to soil type(s), soil layer thickness, ground water elevation, etc. The elevation of the proposed building foundation shall be adjusted accordingly
- 26.) Provide proposed sediment and erosion control measures (i.e., barrier, inlet protection, construction entrance, etc.)

The guidelines listed above are provided as base requirements only. The City Engineer reserves the right to require or omit any data or information, based on individual circumstances.

Water, Sewer & Drain Division
281 Broadway
Revere, MA 02151
O: 781-286-8145
F: 781-286-8146

To All City of Revere Drainlayers,

As of 10/21/21, any permit entered in Citizen Serve without a related civil drawing of the work to be performed will be DENIED. We have recently received an influx of calls about the status of SOPs only to find that no civil design plans were ever uploaded. As a drain layer for the city, you signed an affidavit to adhere to ALL requirements of the city. One such requirement states that a civil design plan must be submitted for review prior to approval of said SOP.

Please note, continual disregard for this requirement may result in denial of a future license renewal application.

AGAIN, ANY PERMIT ENTERED INTO CITIZEN SERVE WITHOUT A COMPLETE CIVIL DESIGN PLAN WILL BE DENIED.

REMINDERS:

1. **ALL Permit Inquiries, status updates, questions etc., must be directed to the Principal Clerk of the Engineering office ONLY.**

Any calls made directly to the Chief of Infrastructure or the City Engineer regarding permit approvals will not be addressed nor responded to. You must contact the Principal Clerk with any questions or inquiries. If needed, forward of such inquires to the heads of departments will be at the clerk's discretion.

2. **Street opening inspection requests are made to the 311 centers ONLY. Please call 781-286-8311 to request an inspection prior to back filling. Calls to Water Sewer Drain superintendent, foreman and/or crew for an inspection will be forwarded to 311.**

ACKNOWLEDGEMENT OF RECIEPT OF CITY OF REVERE GUIDELINES FOR WATER AND SEWER CONNECTIONS

It is the drainlayer's responsibility to read, discuss, and understand the information, rules, and procedures provided. By signing below, the drainlayer acknowledges the following:

I/We hereby acknowledge that I/we have received, read, and fully understand the requirements of City licensed drainlayers. Further, I/we agree to abide by the policies and procedures described in the guidelines provided as defined in the drainlayer application requirements. I/we understand that I will be held accountable for all work performed in accordance with said requirements.
