The City of Revere has allowed construction work to continue. Below are the required **guidelines** that must be followed on all active construction sites.

These Guidelines and Procedures MUST be implemented at all times on all construction sites. All construction sites MUST conduct a Safety Stand Down day in which they read these Guidelines to all employees and workers.

**Any issue of non-compliance with these guidelines shall be a basis for the suspension of work.**

*The contractor will be required to submit a corrective action plan detailing each issue of non-conformance and a plan to rectify the issue(s). The contractor will not be allowed to resume work until the plan is approved by the Owner. Any additional issues of non-conformance may be subject to action against the contractor's prequalification and certification status.*

**Employee Health Protection - ZERO Tolerance**

- ZERO TOLERANCE FOR SICK WORKERS REPORTING TO WORK. IF YOU ARE SICK, STAY HOME! IF YOU FEEL SICK, GO HOME! IF YOU SEE SOMEONE SICK, SEND THEM HOME!
- If you are exhibiting any of the symptoms below, you are to report this to your supervisor (via phone, text or email) right away, and head home from the job site or stay home if already there.

If you notice a co-worker showing signs or complaining about such symptoms, he or she should be directed to their supervisor (via phone, text or email) and asked to leave the project site immediately.

☐ I as the permit holder have read and checked all the boxes of the requirements set forth in this document.
COVID-19 Typical Symptoms:
- Fever
- Shortness of Breath
- Cough
- Sore Throat

DAILY CHECKLIST
Please check off these guidelines everyday in the boxes provided.

Prior to starting a shift, each employee will self-certify to their supervisor that they:

☐ Have no signs of a fever or a measured temperature above 100.3 degrees or greater, a
cough or trouble breathing within the past 24 hours.

☐ Have not had "close contact" with an individual diagnosed with COVID-19. "Close contact"
means living in the same household as a person who has tested positive for COVID-19,
caring for a person who has tested positive for COVID-19, being within 6 feet of a person
who has tested positive for COVID-19 for about 15 minutes, or coming in direct contact with
secretions (e.g., sharing utensils, being coughed on) from a person who has tested positive
for COVID-19, while that person was symptomatic.

☐ Have not been asked to self-isolate or quarantine by their doctor or a local public health
official.

☐ Employees exhibiting symptoms or unable to self-certify should be directed to leave the
work site and seek medical attention and applicable testing by their health care provider.
They are not to return to the work site until cleared by a medical professional.

Work Site Risk Prevention Practices

☐ At the start of each shift, confirm with all employees that they are healthy.

☐ We will have a 100% glove policy from today going forward. All construction workers will be
required to wear cut-resistant gloves or the equivalent.

☐ Use of eye protection (safety goggles/face shields) is recommended

☐ In work conditions where required social distancing is impossible to achieve affected
employees shall be supplied PPE including as appropriate a standard face mask, gloves, and
eye protection.
Work Site Risk Prevention Practices (Continued)

☐ All employees shall drive to work site/parking area in a single occupant vehicle

☐ When entering a machine or vehicle which you are not sure you were the last person to enter, make sure that you wipe down the interior and door handles with disinfectant prior to entry

☐ In instances where it is possible, workers should maintain separation of 6’ from each other per CDC guidelines.

☐ Multi person activities will be limited where feasible (two person lifting activities)

☐ Large gathering places on the site such as shacks and break areas will be eliminated and instead small break areas will be used with seating limited to ensure social distancing.

☐ Contact the cleaning person for your office trailer or office space and ensure they have proper COVID-19 sanitation processes. Increase their cleaning visits to daily.

☐ Clean all high contact surfaces a minimum of twice a day in order to minimize the spread of germs in areas that people touch frequently. This includes but is not limited to desks, laptops and vehicles

Wash Stations:

All site-specific projects with outside construction sites without ready access to an indoor bathroom MUST install Wash Stations.

☐ Install hand wash stations with hot water, if possible, and soap at fire hydrants or other water sources to be used for frequent handwashing for all onsite employees

☐ All onsite workers must help to maintain and keep stations clean

☐ If a worker notices soap or towels are running low or out, immediately notify supervisors. Garbage barrels will be placed next to the hand wash station for disposal of tissues/towels

Please Note: This document is not intended to replace any formalized procedures currently in place with the General Contractor. Where these guidance does not meet or exceed the standards put forth by the General Contractor, everyone shall abide by the most stringent procedure available.
General On-the-Job Guidance to Prevent Exposure & Limit the Transmission of the Virus

- No handshaking
- Wash hands often with soap for at least 20 seconds or use an alcohol-based hand sanitizer with at least 60% ethanol or 70% isopropanol
- Each jobsite should develop cleaning and decontamination procedures that are posted and shared. These Procedures must cover all areas including trailers, gates, equipment, vehicles, etc. and shall be posted at all entry points to the sites, and throughout the project site.
- A "No Congregation" policy is in effect, individuals must implement social distancing by maintaining a minimum distance of 6-feet from other individuals
- Avoid face to face meetings - critical situations requiring in-person discussion must follow social distancing
- Conduct all meetings via conference calls, if possible. Do not convene meetings of more than 10 people. Recommend use of cell phones, texting, web meeting sites and conference calls for project discussion
- All individual work crew meetings/tailgate talks should be held outside and follow social distancing
- Please keep all crews a minimum of 6' apart at all times to eliminate the potential of cross contamination
- At each job briefing/tool box talk, employees are asked if they are experiencing any symptoms, and are sent home if they are
- Each jobsite should have laminated COVID-19 safety guidelines and handwashing instructions
- If a restroom facilities/porta-potties is on site it should be cleaned and handwashing stations must be provided with soap, hand sanitizer and paper towels
- All surfaces should be regularly cleaned, including surfaces, door handles, laptops, etc.
- All common areas and meeting areas are to be regularly cleaned and disinfected at least once a day but preferably twice a day
- Be sure to use your own water bottle, and do not share
- To avoid external contamination, we recommend everyone bring food from home
- Please maintain Social Distancing separation during breaks and lunch.
- Cover coughing or sneezing with a tissue, then throw the tissue in the trash and wash hands, if no tissue is available then cough into your elbow
- Avoid touching eyes, nose, and mouth with your hands
- To avoid sharing germs, please clean up after Yourself. DO NOT make others responsible for moving, unpacking and packing up your personal belongings
- If you or a family member is feeling ill, stay home!

Please place the flyer on the following page at all jobsites.

March 2020
Stop the Spread of Germs

Help prevent the spread of respiratory diseases like the flu and COVID-19:

Wash your hands often with soap and warm water, or use an alcohol-based gel.

Avoid touching your eyes, nose and mouth.

Clean things that are frequently touched (like doorknobs and countertops) with household cleaning spray or wipes.

Cover your mouth when you cough or sneeze. Use a tissue or your inner elbow, not your hands.

Stay home if you are sick and avoid close contact with others.

Think ahead about how to take care of yourself and your loved ones if the virus starts spreading in the community. Visit mass.gov/KnowPlanPrepare for a preparedness checklist.
