## Go-Forth Pest Control Named One of 2021 Best Employers in North Carolina by Business North Carolina Magazine

**Greensboro, NC:** Go-Forth Pest Control was recently named as one of the 2021 Best Employers in North Carolina by Business North Carolina Magazine. This program was created by Best Companies Group. This survey and awards program was designed to identify, recognize and honor the best employers in North Carolina. This includes employers who have benefited the economy, workforce and business in the state of North Carolina. The list is made up of 57 companies and locally-owned Go-Forth Pest Control was one of them. The final rankings will be published in the June issue of Business North Carolina.

To be considered for participation in the Best Employers in North Carolina, companies had to fulfill the following criteria: Be a for-profit, not-for-profit business or government entity; be publicly or privately owned business; have a facility in the state of North Carolina; have a minimum of 15 employees working in the state of North Carolina; be up and running a minimum of one year.

In order to qualify, Go-Forth Pest Control entered into a two-part survey process. The first part consisted of evaluating each nominated company's workplace policies, practices, philosophy, systems and demographics. The second part consisted of an employee survey to measure the employee experience. When combined, this score determined the top companies and the final ranking. Best Companies Group managed the overall registration and survey process, analyzed the data and determined the final ranking, which will be released in June.

“Nothing gives you more confidence that you are succeeding than hearing from your team that they feel happy, motivated, valued and heard at your company,” expressed Chase Hazelwood, CEO and third generation family owner of Go-Forth Pest Control. “The NC Best Employers survey helps us ensure that we are providing an excellent workplace for our team, provides insights into areas for improvement, and we hope will also serve to attract additional talent to our growing team.”
