## HIS HANDS FOR HAITI NEWS

March 2021

We are so grateful that God is always working ahead of us, clearing a path so that we can do the job He sends us to do, and that we do it all for His Glory! We thought the door was closed for a visit to our friends in Haiti this Spring, but at the last minute that door opened. We also weren't sure how it would work with just a two-person team from the US working with so many children. But we have some awesome friends in Haiti who were right there beside us. God kept us strong even when going through some trials. I believe we are closer to Him, we see and feel Him, when we go through trials. He was definitely there leading the way.

We were able to visit eight schools and add a ton of new kids to our program. We also spent a little extra time talking with the Pastors/Directors learning what their future visions are for their schools and students. It is so great when we can see the hearts of Pastors and Directors for their students. Thank You Lord for those hearts.

“Putting extraordinary tasks on the plates of ordinary people so that ordinary people can see what an extraordinary God can do through them.

God's purposes are always higher than ours. They go beyond our natural abilities and thought processes. Yes, what He's saying to you may sound impossible. But if you'll just follow Him in stunned, submitted obedience, stepping out of your cozy comfort zone, you'll find you're leaving the realm of your natural abilities behind and entering the realm of His supernatural ones.

So what will it be? Up for a challenge?”

“If what you sense from God never contains anything that surprises you, you're probably making it up yourself.”

Jan Johnson, [He Will Challenge You](#)

*Is God calling you to do mission work, go to another country? We hope to go back in October! Contact us!*

### **\*\*\*\*Reminder\*\*\*\***

**If you have not yet sent in your sponsorship donations for January, February, March, and April we need those in please so that we can get the funds sent to the schools. Donations should be in no later than the first of each month for monthly donations and by 1 January for yearly donations.**

**If you have a new email address or mailing address we need those to update our records so that you do not miss out on the newsletter, child updates, Pledges, and EOY Statements.**

**The schools we visited in Feb/Mar are: Cap Haitien, DuHaut, Garde Saline, Paulette, Romeo, Savane Carreè, Terrier Rouge, and Trou du Nord.**

I have been on mission trips to Haiti with His Hands the past 8 years (14 times to be exact). I look forward to many more if God is willing to send me. It is very evident that God is working through this ministry. God has shown me so many children filled with Hope because of the education available to them through the support from His Hands for Haiti. God has also kept the team safe even through times of difficulty. He has provided us with beautiful Haitian believers that serve us, each other, and also help with processing the children. I am so very thankful that I am able to see my sponsored children. If you have a sponsored child, I suggest you should pray about going on mission. There is nothing like being able to hug the child you are sponsoring. My husband and I sponsor a young boy, Hitler, who lives in Danda and a teenaged girl, Jessica, who lives in Terrier Rouge. It is always a joy to see them. And we have the privilege of supporting a young man through his college years. I am so very grateful that God has allowed me to serve as a missionary to Haiti.

Team member, Ellen J.

\*\*\*\*\*Medical Needs\*\*\*\*\*

God has put before us a few medical needs and we are truly grateful to all who have sent in donations and continue to donate towards these needs. The little girl with Daniel had been hurt by a large rock. Her sponsor saw her soon after and immediately talked to mom about getting her to the clinic to get her infected hand treated. She did and this trip we got to see her totally healed.

The twin babies are also in great need. Their mom is young and has no help as both her parents have died. These babies have been congested and hungry and after a lot of prayer, talking to mom, trying to work through obstacles, we are doing what we can to help these children with food and medical help. If you would like to contribute please be sure to add a note so the office knows you are sending for medical help in Haiti. They are starting to put on weight and we'd love to see them healthy and mom learning how to care for them and loving doing so.

Love Kerly and Love Madalie are both sponsored. Their sponsors, team members, and others who have donated have helped these two young ones get treatment for their eyes, their infected skin, and now a bunk bed and mattresses to get them up off the dirt floor. The dirt floor is what is causing their rashes and skin infections. Their siblings will also be able to use this bed. Love Kerly now is pretty healthy and has eye glasses. Love Madalie will need eye surgery in a few short years when she's a bit older, but her skin is doing better with treatment as well. Please be praying for her that we will have the funds once it's time for surgery and it will give her a whole new life.

As one child or family is helped we celebrate with praises to the One who puts these before us and shows us how to help. Without Jesus we could never do this. Without our friends in country & the support of our sponsors/donors, we wouldn't know what is needed or how to proceed. God continues to awe us. We ask for your prayers and your help for these families. We can never say Thank You enough!
