

THIS IS WHY YOU REALLY NEED TO BE WORKING AT CAMP THIS SUMMER:

REAL HUMAN CONNECTION

Zoom and such are great, and they serve a purpose to some degree. But they are NOT a substitute for real human connection. The essence of camp is in the human relationships we forge. Something we are all craving right now.

REACQUAINT YOURSELF WITH NATURE

While society has been trapped indoors for the past year, the fact is that most of the world is OUTDOORS, and it is amazing and beautiful, and it calms and restores.

LEADERSHIP BOOT-CAMP

The kind of leadership that's not taught in books, classrooms or TedTalks. Real, HANDS-ON leadership that you can only learn by being responsible for a group of children. Camp provides leadership experience that will elevate your game for the rest of your life- at home, in school, and in your career.

IMPACT ON THE FUTURE

Immediately become an integral part in the development of the next generation. POSITIVELY INFLUENCING THE EMOTIONAL LIVES OF KIDS who have been locked down for the better part of the past year. Become a summer hero who mentors and guides young people into contributing members of society.

As a legit youth development professional, you can make the world a better place, one camper at a time, MANY times each day!
