Lung Cancer Screening
Why screen for lung cancer?

Screening can find lung cancer early when it’s easier to treat

United States Preventive Services Task Force screening recommendations for lung cancer

Adults aged 50-80 with a 20 pack-year smoking history
- Smoked 1 pack/day for 20 years, OR
  2 packs/day for 10 years
- Current smoker or quit within past 15 years
- Screen every year

Talk with your doctor about being screened
