

Parking on School Property

Driving and parking on district property are privileges granted by the Board of Directors to persons who have reasons and are authorized to be in the building or on school property.

The building administrator or designee, with assistance from the director of facilities, is responsible for accommodating the flow of traffic on school roadways and placing appropriate signs to facilitate such traffic flow. Building administrators have the responsibility for assignment of parking areas to staff, students and visitors to the buildings. Parking areas will be designated and maintained for persons with handicapping conditions, as mandated by law.

Individuals who drive vehicles onto school property are fully responsible for the contents of that vehicle. Items found in vehicles that are a violation of school/district rules, policies, state statutes, or federal laws will be dealt with in accordance to district/school policies and/or state and federal rules, regulations, and laws.

It is the responsibility of all drivers to make sure that they know what is in any vehicle they bring onto school property and to keep such vehicles secure (locked) while on school property. The board of directors, through building administrators, will require students and/or parents/guardians to sign a statement that they understand that they are fully responsible for the contents of any vehicle that they drive onto school property.
