

Mt. Blue Regional School District Meals Charging Policy

To ensure that all students have access to healthy school lunches and to maintain compliance with federal regulations, The Mount Blue Regional School District has instituted a district meals charging policy. We strongly believe that nutritious meals are a vital component to a healthy school environment and that they may enhance learning while helping to minimize illness, absences and disciplinary problems.

It shall be the policy in our schools that when a meal is desired, payment for that meal is expected in advance or on that day unless the student has been approved for free meal benefits. No student who is believed to be improperly nourished shall be denied a meal. The full version of the meals charging policy is attached and can also be found on the district website at www.mtbluersd.org/district-information/school-board/policy-manual.

Free/reduced meal applications must be completed every year and are part of the annual paperwork completed in PowerSchool. Paper applications are also available at each school and can be mailed home by request by calling your child's school or the district central office. Applications are accepted at any time throughout the school year.

The district understands that many families may be experiencing financial difficulties, and we would urge those families to call the Nutrition Services Director at 207-778-6571 with any questions or concerns.

Mt. Blue Regional School District Meals Charging Policy

- Beginning on (August 1, 2017) all meals will need to be pre-paid
- Students will be allowed to charge a maximum of 10 lunches or \$35.00 whichever is reached first. After a \$35.00 negative balance is reached, a letter will be mailed home indicating that the maximum negative balance has been exceeded. The letter will include the current account balance, a copy of the District Charging Policy, and a free/reduced meal application.
- Students must have funds on their account to purchase milk, snacks, or drinks.
- Any student who buys just milk because he/she has brought a meal from home must pay the full price for the milk, even if they participate in the free or reduced price meal program.

If a student comes to school without a lunch or money for lunch for three or more consecutive days, or seven days within a 30 day period, the cafeteria manager or classroom teacher will report this to the building principal for review and action. The principal or school counselor will contact The Maine Department of Health & Human Services if they feel this is a sign of abuse or neglect.

The district will promote that it is the duty of the parent/guardian and/or student to track cafeteria account balances. This is done through the PowerSchool Portal for K-5 students and through “My School Bucks” for middle and high school students. Both payment portals can be accessed through the district website at www.mtbluersd.org. Meal account balances may also be obtained by calling the Nutrition Services Director at 207-778-6571.

Payment: Payments on lunch accounts may be made in the following ways:

1. **Grade PK-5 Online-** Create a free account on E-funds for Schools and pay with credit or debit card. This service allows you to make single or ongoing automatic payments.
2. **Grade 6-12 Online-** Create a free account on MySchoolBucks.com and pay with credit or debit card. This service allows you to set up low balance notices and make automatic payments as well as see all purchases your student is making.
3. **Mail -** Check or Money Order payable to Mt. Blue Nutrition Program sent to Mt. Blue School Nutrition, 129 Seamon Rd. Farmington Maine 04938
4. **On-Site -** Checks, money orders or cash are accepted at all the school sites.

Denying Meals: Schools reserve the right to deny a meal to a student who pays reduced or full price and who does not provide the required payment for that meal. No student, who is believed to be improperly nourished, shall be denied a meal for any reason. Students with free meal status may continue to receive meals, even if they have an outstanding balance, however other restrictions would still be applicable. National School Lunch Program regulations prohibit schools from denying meals as a form of disciplinary action against any student.

Consequence for Negative Balance: Nutrition Services will record all negative balances owed to the school district. Until the balances are settled under the authority of the Nutrition Services Director and the Business Manager, a student carrying a negative balance of more than \$100.00 :

1. Will not be eligible for senior privileges.
2. May not be eligible to participate in graduation ceremonies.
3. Balances will be referred to collections when they reach \$300.00 if no effort has been made to address the outstanding balance. Prior to the outstanding bill being sent to collections a final notice letter will be mailed.
4. Students attending school in the district under a Superintendent's Agreement may not have the agreement renewed until balances are paid.

De-activation- Account closing: If a parent/guardian does not want their child to participate in the meal programs at the student's school, the parent must contact the school principal and implement a written agreement between the parent/guardian and the school principal. The principal will report the student(s) whose accounts should be deactivated to the nutrition director and a copy of the agreement will be kept on file. The deactivation will be completed within three school days of receipt of written agreement. If the student attempts to use the meal service, the cafeteria manager will inform the principal to contact the parent.

Contact: Nutrition Services will attempt to contact parents/guardians by phone, email or U.S. Postal Service using the contact information supplied to the district, but it is the parent/guardians responsibility to ensure that funds are on the child's account.
