

FACILITIES DEVELOPMENT GOALS/PRIORITY OBJECTIVES

As the board seeks to overcome deficiencies in its physical plant, it will strive to provide new and remodeled facilities that will offer the best possible physical environment for learning and teaching.

The board aims specifically toward:

- A. Constructing new buildings and making renovations that will accommodate new organizational and instructional patterns that support the school system's educational philosophy and goals;
- B. Meeting all safety requirements through the remodeling of older structures;
- C. Providing renovations of public school facilities to meet the requirements of individuals with disabilities; and
- D. Building design and construction that will lend to low maintenance costs and the conservation of energy. These two factors will also be given special consideration in the renovation of buildings.

Decisions pertaining to educational specifications of new buildings and those undergoing extensive remodeling will be developed only after the viewpoints of teachers, students, parents, and citizens have been sought.
