

Student Retention

Should a student not achieve mastery of a curriculum standard or standards, the student will participate in one or all of the following:

- After school tutorial sessions, extended day and /or extended year programs
- Repeat the educational experience (this could mean repeating a lesson, series of lessons, a course, or the entire year's instruction depending on the student's progress, ability, and/or attitude)

If a student does not achieve mastery of a curriculum standard or standards, and does not participate in any or all of the above remediation activities, he/she will be retained.

Parent's support is crucial in helping their child achieve mastery of all curriculum standards.

If parents do not agree with the evaluation of their child, they may consult with the child's teacher and school principal.
