Dear RSU 9 Community,

We wanted to make you aware that five people associated with **Mt. Blue High School** (to include the positive case reported on 1/1/21) and one person associated with **Academy Hill School** have tested positive for Covid-19. Given the timing of the holiday break, we have determined that there are no close contacts. Our buildings were cleaned and sanitized according to CDC guidelines over the break.

The Maine CDC contacted us late this afternoon and informed us there is currently an outbreak at **Mt. Blue Campus**. The Maine CDC defines an outbreak as 3 or more confirmed cases from different households within 14 days in a school.

Upon consultation with the Maine CDC this evening, we have determined no changes in our educational model or additional safety measures are required at this time. We will contact you if we receive further information from the CDC related to our circumstances.

Families and staff, thank you for your diligence in completing your health screening before school. It has kept many of our families and staff safe and has prevented exposure to Covid-19.

If your student has tested positive or has been in contact with someone who has tested positive for Covid-19, please contact your school.
