EMERGENCY DRILL PROCEDURE

From time to time it is imperative for public buildings, such as schools, to be evacuated in a matter of seconds. In case of emergency, the fire alarm (or emergency tone followed by verbal instructions) will be sounded and all students, teachers, guests and other personnel will proceed according to the following pattern:

- a. The first person out of each classroom will push the door back as far as it will go and proceed on his/her way.
- b. The first person to exit through the outer doors will secure the door by pushing it back and proceeding on his/her way.
- c. Upon reaching the **designated area**, students will group together with members of the class with which they were just meeting and the teacher.
- d. Teachers will follow the last student to leave their class and meet with their class out of doors in **designated areas**.
- e. Emergency evacuation is deadly serious and you will not know until afterwards whether or not an emergency existed. Consequently, there is to be no pushing, shouting, running or other pattern of behavior, which could be detrimental to the safety of anyone. Once at the **designated area**, conversation should be quiet and reserved.

Proceed to the exit according to the information posted on the bulletin board in each room.

GENERAL RULES

At all times students are expected to comply with reasonable requests from ALL staff members to follow the rules. Refusing to comply is a very serious offense, which will result in suspension from school. Anytime students question a request from a staff member the general thought is to comply and check with the administration for any clarifications of a staff request.

1. Inappropriate public displays of affection will not be permitted in school.
2. Swearing or vulgar language is not appropriate at any time and will not be tolerated.
3. Plagiarizing is stealing someone else's work and using it as one's own. Students must be very careful that they do not copy the work of another and turn it in for credit. It is also important to understand that sharing one's work with another is a form of cheating. If there is any question, before beginning a project the teacher should be consulted. Cheating is not permitted in this school. The first offense of either plagiarizing or cheating will be dealt with in the following manner – zero for the work involved and notification to parent(s) explaining the incident. Continued plagiarizing or cheating – may lead to possible dismissal from the course and loss of credit.
4. Any behavior, which puts another person at risk of harm, will not be tolerated.
5. Objects which are dangerous by their nature, such as chains or other sharp objects,

and which could create a health hazard to students in the schools of RSD #9 may not be brought onto school property or carried onto the school busses. Students found in violation of this policy will receive harsh disciplinary action and in all cases, the student's parents or guardian will be informed of the situation.

6. Stealing, damaging or destroying any school or personal property will not be tolerated.
7. Fire extinguishers and fire alarms are important safety devices, which could save lives and prevent property damage. They are not toys. Anyone who tampers discharges or abuses them will be subject to suspension and/or legal consequences.
8. Eating food and drinking beverages in the classroom is left to the discretion of each individual teacher. Food and drinks are NOT allowed in science lab areas at anytime. The Forum and Auditorium are "water only" zones.
9. Use of the elevator is restricted to teachers and students who are physically unable to use the stairs. Elevator passes are available in the nurse's office; they should be returned at the close of school each day.
10. Library privileges may be revoked and parents will be billed if students owe money for lost library/text books, lab fees or unpaid lunches.
11. Students may use cell phones before school begins, between classes, during lunch and after school closes. Cell phone use during classes and assemblies are prohibited.
12. Students are not allowed in the parking lot area during regular school hours unless they are arriving/leaving school or are part of a regular classroom activity (ex. P.E.). Permission to retrieve items from vehicles during regular school hours must be obtained from an administrator.
13. Students on school property or on school trips shall not violate any of the criminal or traffic laws of the State of Maine as those laws are set out in titles 17-A and 29-A of the Maine Revised Statutes Annotated. 1891, c 693, 5, 8 (new) Eff. 7/1/83 6807, Liability for injury to books or appliances
14. A breathalyzer procedure is in place in order to discourage any alcohol consumption at school events. Please refer to district policy [IICHA-R](#)
15. A canine drug "sniff" procedure is in place in order to discourage students from using or possessing drugs at school events. Please refer to district policy [IIHE](#)
16. The wearing of hats, hoods and other related headwear is prohibited during all assemblies but will be allowed in the hallways and lobby area before and after class. Allowance of hats in classrooms is at the teacher's discretion.
17. Personal listening devices (iPod, phones, etc.) may be used at teacher discretion and will not be allowed during assemblies and class meetings.
18. The privilege of bringing vehicles to school may be restricted to juniors and seniors if space becomes an issue.
19. Students are not allowed to do face painting, wear masks or sunglasses at school unless for a specific class or activity.
20. Students who stay after school must be supervised at all times or be in an area being supervised (Library, EDP, or with a staff member).

If a public school student loses, destroys or unnecessarily injures a schoolbook or appliance furnished to him at the expense of the school administrative unit, his parent shall be notified. If the loss or damage is not made good to the satisfaction of the school board

within a reasonable time, they shall report the case to the assessors of the municipality in which the student resides. The municipal assessors shall include in the next municipal tax of the delinquent parent the value of the book or appliance, to be assessed and collected as other municipal taxes. 1981, c. 693, 5, 8 (new) Eff. 7/1/83.

DISCIPLINARY ACTION

Principals may discipline, suspend and/or recommend expulsion of students who violate this policy based upon the facts of each case and in accordance with applicable state and federal laws. Conduct which violates this policy is deliberately disobedient and deliberately disorderly within the meaning of 20-A M.R.S.A. 1001 (9) and will be grounds for expulsion if found necessary for the peace and usefulness of the school. Such conduct may also be grounds for expulsion under other provisions of 20-A M.R.S.A. 101 (9 and 9-A) that specifically prohibit the use and possession of weapons, infractions of violence, and possession, furnishing and trafficking of scheduled drugs.

Students who are found to have brought a firearm to school (as defined by federal law) or **have brought on the school property a vehicle containing a firearm** shall be expelled for a period of not less than one (1) year, unless this requirement is modified by the Superintendent on a case-by-case basis. Please be advised that the district's complete Weapons, Violence and School Safety policy (file: [JICIA](#)) is on file via the district policy manual.

Students with disabilities shall be disciplined in accordance with applicable federal and state laws/regulations and Board Policy [JKF](#).

Students in violation of this policy run the risk of expulsion.

SUSPENSION

Violation of school rules concerning drugs and alcohol, smoking, fighting, stealing, damage to school property, verbal or physical abuse to a staff member, excessive vulgar language, insubordination and/or actions deemed to be dangerous will be handled by suspension according to RSD #9 discipline guidelines. **Principal or Assistant Principals may initiate suspensions when it is deemed necessary in the judgment of that official.**

STUDENT SUSPENSION-REGULATION - Administrative Guidelines

SUSPENSION (IN-SCHOOL)

In-School suspension exists as an alternative to Out of School Suspension. The building administration based on the severity of the offense shall designate candidates for In-School Suspension. The In-School Suspension Monitor will work with the building administration and will maintain an area in the building where suspended students will reside during the school day to work on academic school related work during the suspension period.

Suspended students (in-school and out of school) **will not be allowed to participate in extra or co-curricular activities, dances, plays, etc.** on the day(s) they are suspended.

Suspended students will be allowed to make-up their work once the suspension period has ended. For example: A student who is suspended for 5 days will have 5 days to make-up any missed work once the suspension ends.

Please be advised that the rules of student conduct apply to student conduct at **ANYTIME or PLACE** (on or off school property) if that conduct interferes with the operations, discipline, or general welfare of the school.

GRADING DURING SUSPENSIONS

A student will be allowed the same number of school days missed during the suspension to make up his/her work, unless the teacher and student have created an alternative plan. For example, a student who was suspended for three days will have three schools days from the day he/she returns or additional time per teacher discretion.

PHYSICAL RESTRAINT AND SECLUSION

The Board has adopted a policy/procedure [JKAA/JKAA-R](#) addressing Restraint and Seclusion of Students. The policy/procedure can be accessed on the district's website at: www.mtbluersd.org, in school offices and the Superintendent's Office. Any parent with questions about the policy/procedure should discuss the issue with a building principal, the Special Education Director or Superintendent.

MBC DRESS CODE

Purpose: This document is designed to clarify expectations for students regarding appropriate dress while at Mt. Blue Campus. Clothing is expected to fit our educational mission.

Students are expected to wear clothing suitable to the learning environment. Students are encouraged to use sound judgment and reflect respect for themselves and others in their choice of clothing. In keeping with the goals of the school unit to provide a safe, healthy and non-discriminatory environment for educating students for maximum academic and social development, we ask that the following expectations be met. Individual teacher enforcement of expectations is to be respected by students.

Clothing expectations include the following:

- Midriff, back, behinds, cleavage and undergarments must be covered.
- Shirts and dresses must have two shoulder straps, one for each shoulder.
- Sheer shirts must be accompanied by a minimum of a tank top.
- Skirt/shorts/dresses must be mid-thigh.
- Shoulder straps must be a minimum of 1 inch wide. (This is not the sum of several smaller straps.)

The following types of clothing and dress are inappropriate for school attire, and may not be worn:

- Clothing that presents a clear and present likelihood that it will cause a material and substantial disruption of the proper and orderly operation and discipline of the school; Clothing advertising, depicting, featuring, or referring to alcohol, tobacco, weaponry, violence, drugs or profanity is not allowed. Racist, sexist, or otherwise harassing material is also not allowed. • Clothing that causes disruption to the learning environment is not allowed. School administration reserves the right to determine whether clothing is disruptive.
- Extended arm holes;
- Articles of clothing that are sexually suggestive in writing and design or that promote drugs, alcohol or tobacco products (includes but is not limited to mushroom or marijuana jewelry);
- Clothing, footwear, insignia or accessories that are intended to identify the wearer as a member of a particular gang (ex: bandanas tied on leg);
- Articles of clothing with displays or that are themselves of a sexual, vulgar, lewd or indecent nature or include insulting words (e.g., racial/ethnic slurs);
- Clothing that is destructive of school property (e.g., cleats, pants with metal inserts that scratch furniture);
- Beach wear, halters, bare midriff or sheer or revealing clothing;

Hats, hoods, and other types of head coverings are permitted with the following exceptions:

- in classrooms and in other teaching spaces at the teacher's discretion;
- at assemblies and class meetings.

School administrators or teachers may require special clothing for health and safety reasons for students participating in physical education, MBHS and FTC courses, certain extra curricular activities, work with or around machines or other activities. However, no particular brand can be required. In addition, there may be articles of clothing that are

deemed inappropriate that are not included above. Administrators will use their judgment in this type of situation.

Tobacco-Free School (Policy [GBED](#))

Research has shown that students addicted to tobacco products do not learn as well because they are focused on the need for more tobacco versus learning. In order to promote the health and safety of all students and school employees, optimal learning conditions, and the cleanliness of all facilities, the Mt Blue Regional School District School Board, hereinafter referred to as the “Board,” prohibits the use of all tobacco products in school buildings, facilities, and on school buses during school-sponsored events. The policy will reflect and emphasize the hazards of tobacco use; assure compliance with state and federal laws; protect the health and safety of all students, employees and the general public; and role model a non-tobacco use environment by adults.

Use of Tobacco Products on School Property

Tobacco is a leading killer and leading cause of preventable deaths in Maine. To support and model a healthy lifestyle for our students the Board adopts the following tobacco-free policy;

- The Mt Blue Regional School District buildings and property shall be tobacco-free 24 hours a day, 365 days a year. This includes all day when school is not in session and all functions taking place on school grounds, such as athletic functions and other activities not associated with, or sponsored by, the school.
- Maine law prohibits possession or use of tobacco products by anyone less than 18 years of age.
- Possession or use of tobacco products by students on district property or in school owned vehicles and at school-sponsored functions is prohibited.
- Sale or distribution of tobacco products by anyone is prohibited at all times on the school campus.
- The use of tobacco products by all school employees on school property or in school vehicles, bus stops and at school-sponsored functions is prohibited.
- The use of tobacco products by all visitors on school property is prohibited. This includes non-school hours and all functions sponsored by the school or by others, **including any lessees or invitees, and** athletics, on or off school property.
- Advertising of tobacco products is prohibited in school buildings, on school property, at school functions, and in all school publications. This includes clothing that advertises tobacco products.

CHEMICAL HEALTH POLICY

The Board of Directors of Regional School District No. 9 (RSD #9) recognizes that chemical abuse and/or emotional concerns may cause personal and professional problems. These problems may directly or indirectly affect the individual's performance either as a student or as a district employee.

It is the intent of the Board of Directors of RSD #9 to assist the individual to get the help necessary to return or continue in their present capacity.

It is not the Board of Directors' nor the School Administrators' task to diagnose chemical abuse and/or emotional problems, but rather to make referral to such agencies or individuals who can make the diagnosis and recommend appropriate follow-up.

Student Chemical Health Policy (Secondary/Elementary)

The Board of Directors of RSD #9 recognizes that the use of mind-altering chemicals is a significant health problem for many students, resulting in negative effects on behavior, learning, and the total development of each individual. Student's use and abuse of alcohol and other drugs also affect the development of skills related to participation in extracurricular activities. Familial chemical dependency problems, likewise affect the learning of children and place them at high risk of developing chemical health problems.

Student health problems are primarily the responsibility of the parent or guardian. However, the school and community share in that responsibility because chemical health problems often affect learning and development.

It is the affected student's right to learn and the community's responsibility to provide programs and services that include guidance, counseling, support groups, education, and positive adult models that will insure a safe environment in which alcohol and other drug dependency cycle may be broken.

The Board of Directors support education and awareness activities for school personnel, students, and parents or guardians. These educational programs cover chemical use and abuse problems, including the symptomology of chemical dependency and related problems affecting students.

The Board of Directors believes that a chemical health policy should include: (1) firm standards and prohibitions about the use and distribution of chemicals and; (2) assurances to the students that the school will help them confront and overcome their chemical use and abuse problems.

Consequently, the Board of Directors is committed to offering a comprehensive chemical health program that addresses primary, secondary, and tertiary prevention.

1. **Primary prevention:** includes, yet is not limited to, those activities that focus on chemical health education, self-esteem, chemical-free alternatives, decision-making, and coping skills.
2. **Secondary prevention:** addresses early intervention, referral, follow-up, and support services for students and families who may have chemical dependency or emotional problems.
3. **Tertiary prevention:** addresses students who are taking part in outpatient treatment or are returning for an in-patient experience. A program will be developed and implemented to meet the individual needs of each student working on recovery from emotional or dependency problems.

In school or at school-related functions, a student shall not use, possess, or distribute alcohol, marijuana or other substances defined by law as a drug or a look-alike drug. Drug paraphernalia that includes any device, which may facilitate the use of drugs, will be considered and treated with the same penalties as possession or use as described elsewhere in district policy and regulation. Violation of this prohibition may result in suspension or expulsion.

CHEMICAL HEALTH REGULATION ([Policy JICH-R](#))

1. Any school staff member who has a concern or is approached by student(s) about a substance abuse or tobacco problem shall refer the student(s) to the School Counselor or School Nurse.

Hazing: [Policy ACAD](#)

Maine statute defines injurious hazing as any action or situation which recklessly or intentionally endangers the mental or physical health of a student enrolled in a public high school.

Hazing is any action taken or any situation created an emotional and/or physical harm to a member of a group or team, whether new or not, regardless of the person's willingness to participate.

It is the policy of the board that injurious hazing activities of any type, either on or off school property, by any student, staff member, group, or organization affiliated with this school unit, are inconsistent with the educational process and shall be prohibited at all times.

No administrator, faculty member, or other employee of the school unit shall encourage, permit, condone, or tolerate injurious hazing activities. No student, including leaders of students' organizations, shall plan, encourage, or engage in injurious hazing activities. Persons not associated with this school unit who fail to abide by this policy may be subject to ejection from school property and/or other measures as may be available under the law.

Administrators, faculty members, students, and all other employees who fail to abide by this policy may be subject to disciplinary action that may include suspension, expulsion, or other appropriate measures.

In the case of an organization affiliated with this school unit, which authorizes hazing, penalties may include recession of permission for that organization to operate on school property or to receive any other benefit of affiliation with the school unit.

These penalties shall be in addition to any civil or criminal penalties to which the violator or organization may be subject.

The superintendent shall assume responsibility for administering this policy. In the event that an individual or organization disagrees with an action or lack of action, on the part of the superintendent as he/she carries out the provisions of this policy,

that individual or organization may appeal to the full school board. The ruling of the school board, with respect to the provisions of this policy, shall be final.

A copy of this policy shall be included in all school, parent, and faculty handbooks or otherwise distributed to all school employees and students.

PARENT RIGHT TO REQUEST QUALIFICATIONS OF STUDENT'S TEACHERS:

All teachers must meet general qualifications as well as the specific requirements of the subject they are teaching. This means we will be informing parents whenever a teacher who does not meet the new federal definition of "Highly Qualified" teaches a child for four consecutive weeks. Parents have the right to request information on the quality of their child's teacher.

Maine has some of the most qualified teachers in the country, and we are extremely proud of our teaching staff. We work hard to assure that every class has a teacher with the appropriate background, experience, and credentials for his or her current teaching assignment. Parents have the right to request information on the qualifications of their child's teacher.

We believe that a caring, competent, and qualified teacher for every child is the most important ingredient in education reform, and we want to assure you that we consider all our teachers to be fully qualified for their positions. All of our teachers have college degrees and many have advanced degrees. In addition, every teacher continues his or her own learning through professional development activities and our teachers are evaluated each year to ensure that their teaching skills remain at the highest possible level.

Most teachers already meet the federal definition of "Highly Qualified". Those who do not meet this federal standard will be able to do so by engaging in additional professional development or by passing a test.

Additional information on the NCLB Act, as well as on the qualifications of your child's teacher is available on request. Please contact the Director of Curriculum (207) 778-6571 if you have questions or would like further information. Working with parents is an important aspect of our efforts to help students learn and we welcome your interest.

OFFICER IN THE SCHOOL PROGRAM

The "School Resource Officer" (S.R.O.) program is a grant-funded program that places a member of the Farmington Police Department at Mt. Campus for designated hours during the school day at 778-3561. The officer is available to discuss issues and legal matters with students who need that service and will also work with school administrators when dealing with issues that range from harassment to other criminal justice matters.

Any interview that has the potential of leading to criminal or legal charges being levied against the student will require a reasonable attempt by the S.R.O or administrators to contact a parent or guardian to seek permission to conduct the interview with S.R.O. interaction. Parents may also request to be present during that interview. Miranda warnings may be issued to students where potential legal action is forthcoming. All searches of students and their property on school grounds or at school sponsored activities will be conducted by an administrator.

In situations where eminent danger exists and immediate action is required, parents do not have to grant permission to conduct interviews and do not have to be present during those interviews. Every reasonable attempt will be made to notify parents as soon as possible following the incident.

The S.R.O. may be called upon to assist administrators with other disciplinary issues (for example but not limited to: harassment, terrorizing, assaults, drugs, liquor & tobacco violations, etc.). It is the intent of our school that the S.R.O. serves as a valuable informational resource for staff and students.

For students wishing to contact the officer directly, the office is located next to the main office. The School Resource Officer can also be reached through the Farmington Police Department at 778-6311.

BOMB THREAT POLICY EBCC

No person shall make or communicate by any means, whether verbal or non-verbal, a threat that a bomb has been or will be placed on school premises. Because of the potential for evacuation of the schools and other disruptions of school operations, placement of a bomb or a "look-alike" bomb on school premises will be considered a threat for the purpose of this policy.

Making a bomb threat is a crime under Maine law. Any student suspected of making a bomb threat shall be reported to law enforcement authorities for investigation and possible prosecution. Apart from any penalty imposed by law, and without regard to the existence or status of criminal charges, a student who makes a bomb threat shall be subject to disciplinary action by the school. The administration may suspend and/or recommend for expulsion for any student who makes a bomb threat.

The RSD #9 Bomb Threat Policy in its entirety may be obtained through the building Principal or in the policy manual section on the RSD #9 web site (RSD9.com).

SCHOOL SAFETY AND SECURITY

All such evaluations shall be performed at the school unit's expense. Searches may include pat down and searches of the student's outer clothes (e.g., pockets, jacket, shoes, hat) and personal belongings (e.g., purse, backpack, gym bag, lunch bag). The student may be given the opportunity to open any closed items and items that are not easily accessible to visual search. If the student refuses, the administrator shall open and search the items. 3. If practical, the student should be present during the search. A reasonable effort will be made to conduct searches out of the sight and hearing of other students. The student may be given the opportunity to open any closed items or items that are not easily accessible to visual search. If the student refuses, the administrator shall open and search the items.

Lockers are available for student use. All lockers in use must have a school issued lock. Locks are available in the main office for the cost of \$10.00. The \$10.00 will be returned to the student when the lock is returned at the end of the school year.

Students assume full responsibility for the loss of their valuables, which have been left in lockers. Each student assumes the responsibility for the condition and contents of his /her locker, which must be kept, closed at all times. Failure of any locker to operate should be reported to the main office immediately. All lockers are the property of RSD #9 and the school reserves the right to inspect the lockers and contents at any time. Please be advised that due to a limited number of lockers, some students may be required to share locker space.

FOOD COURT EXPECTATIONS

The time for each lunch shift is determined by the student's class schedule for periods 3 (blue day) and 3 (gold day). It is common courtesy for students to pick up after themselves following each lunch shift. Students who leave cafeteria trays and/or food and garbage will

be assigned detention by the main office. Please remember this is your school and other students will need to use these tables after your lunch shift ends. We ask that you be responsible and thank you for your cooperation.

Mt. Blue Regional School District Meals Charging Policy

To ensure that all students have access to healthy school lunches and to maintain compliance with federal regulations, The Mount Blue Regional School District has instituted a district meals charging policy. We strongly believe that nutritious meals are a vital component to a healthy school environment and that they may enhance learning while helping to minimize illness, absences and disciplinary problems.

It shall be the policy in our schools that when a meal is desired, payment for that meal is expected in advance or on that day unless the student has been approved for free meal benefits. No student who is believed to be improperly nourished shall be denied a meal. The full version of the meals charging policy is attached and can also be found on the district website at www.mtbluersd.org/district-information/school-board/policy-manual.

Free/reduced meal applications must be completed every year and are part of the annual paperwork completed in PowerSchool. Paper applications are also available at each school and can be mailed home by request by calling your child’s school or the district central office. Applications are accepted at any time throughout the school year.

The district understands that many families may be experiencing financial difficulties, and we would urge those families to call the Nutrition Services Director at 207-778-6571 with any questions or concerns.

SCHOOL LUNCH

Students and parents should be alerted to the fact that the price of lunch may vary throughout the year in relation to the subsidy received by the District for the support of the program. Students who are eligible for free and reduced lunch are also eligible for free and reduced breakfast.

MS/HS (6-12) Full Prices:	Lunch \$2.55	Breakfast \$1.50	Milk .45
Reduced Prices:	Lunch-Free	Breakfast-Free	Milk .45
Adult Prices:	Lunch \$4.15	Breakfast \$2.25	Milk .45

All students are to eat in the Food Court. During lunch period, students are not to be in any part of the building except the Food Court or the courtyard adjacent to the Food Court.

PASSES and VISITOR BADGES

Passes must be obtained prior to the Learning Lab. Learning Lab teachers may not issue passes except in cases of emergency. Students are required to have passes when leaving

regular classes as well. Students should not be allowed to go to the coffee shops or cafeteria during class time without a pass from their teacher.

All visitors, during school hours, must check into the main office to sign in and be issued a visitor badge. We do not allow visitors from other schools during school hours. In unique circumstances, please contact administration.

PHONE USE

School telephones are business phones and should not be used by students except to call parents concerning illness. Incoming calls for students will not be accepted unless a parent or guardian has an important message he/she wishes to deliver to the student.

Cell Phones:

Any use of cellular telephones and other electronic devices that violates any Board policy, administrative procedure or school rule is strictly prohibited. This includes, but is not limited to violations of the student code of conduct, harassment and cheating. Such devices may be subject to search if there is reasonable suspicion that a student is violating Board policies, procedures or school rules, or engaging in other misconduct.

Personal cell phones (and all electronic devices) should not be used in class. During classes and school activities, all devices should be put away and turned off. Use in the classroom is per teacher discretion. Teachers will set classroom expectations related to cell phone protocols. In the interest of student safety, online behavior and on-device behavior must remain respectful.

Cell phones:

- May be used prior to 7:45, during lunch, after 2:02, and during non-class time.
- May not be used to broadcast audible music.
- May not be used for incoming or outgoing voice calls when in classes.
- May be used by seniors in the food court with senior privileges.
- May not be used in the office while students are waiting for disciplinary action.
- Are not allowed in ISS - Phones will be collected while a student is in ISS and will be returned to the student at 2:02.

If these expectations are not met, teachers will have the authority to confiscate the phone from the student and refer the student to the office. For repeat offenses, disciplinary action will ensue, and parents may be called to pick up the cell phone. Failure to surrender an electronic device will be considered failure to follow a directive and may result in a suspension. Multiple offenses may incur additional consequences at the discretion of the administration, to include referral to law enforcement, legal action, and privileges being revoked. The building administrator shall have the final authority to decide whether a student's electronic device or cell phone privileges will be altered, based on the circumstances of the particular case.

BARR Program

BARR — Building Assets, Reducing Risks — is an evidence-based model that provides our school with a strength-based comprehensive approach to meeting the academic, social, and emotional needs of all students. Through BARR, we work to harness the power of relationships and data to remove both academic and non-academic barriers to learning and ensure that no student is invisible.

At Mt. Blue, all freshman students are grouped with the intention of sharing a common English, social studies, math and science teacher. This teacher team meets throughout the week to monitor student progress, identify strengths and to consider ways to support and challenge all students. Each week, our freshman counselor, social worker, and assistant principal meet with teacher teams to offer additional support for students and help provide recognition for students' unique strengths and talents.

All freshman students are assigned an adviser who is a part of the freshman BARR staff. The adviser will serve as the point person to monitor student progress and communicate with the student, their family and the rest of the BARR team.

BARR is the framework that provides us the opportunity to get to know each of our student's strengths and interests during a critical transition time in their education. As educators, we leverage the knowledge we gain through relationship building and I-Time in order to better engage and challenge our students.

- The school nurse shall review the Medication Request/Permission Form for completeness and clarity. If the nurse has any questions or concerns about the form or medication, he/she may decline to administer the medication and will contact the parent/legal guardian and/or health care provider, as appropriate, for more information.

Mt. Blue Regional School District (RSU #9) CONCUSSION INFORMATION SHEET

Your signature that you've read the student handbook includes agreement with the concussion policy.

A concussion is a brain injury and all brain injuries are serious. They are caused by a bump, blow or jolt to the head, or by a blow to another part of the body with the force transmitted to the head. They can range from mild to severe and can disrupt the way the brain normally works. Even though most concussions are mild, **all concussions are potentially serious and may result in complications including prolonged brain damage and death if not recognized and managed properly.** In other words, even a “ding” or a bump on the head can be serious. You can't see a concussion and most concussions occur without loss of consciousness. Signs and symptoms of concussion may show up right after the injury or can take hours or days to fully appear. If your student reports any symptoms of concussion, or if you notice the symptoms or signs of concussion yourself, seek medical attention right away.

Symptoms may include one or more of the following:

- Headaches
- “Pressure in head”

- Nausea or vomiting
- Neck pain
- Balance problems, or dizziness
- Blurred, double, or fuzzy vision
- Sensitivity to light or noise
- Feeling sluggish or slowed down
- Feeling foggy or groggy

- Change in sleep patterns
- “Don’t feel right”
- Fatigue or low energy
- Sadness
- Nervousness or anxiety
- Irritability
- More emotional
- Confusion
- Concentration or memory problems (forgetful)
- Repeating the same question/comment
- Amnesia

Signs observed by teammates, parents or coaches include:

- Appears dazed
- Vacant facial expression
- Confused about assignment
- Forgetful
- Unsure of surroundings
- Moves clumsily or displays in coordination

Mt. Blue Regional School District (RSU #9) CONCUSSION INFORMATION SHEET

What can happen if my child keeps on participating with a concussion or returns to soon?

Students with the signs and symptoms of concussion should be removed from activity immediately. Continuing activity with the signs and symptoms of concussion leaves the young student especially vulnerable to greater injury. There is an increased risk of significant damage from a concussion for a period of time after that concussion occurs, particularly if the student suffers another concussion before completely recovering from the first one. This can lead to prolonged recovery, or even to severe brain swelling (second impact syndrome) with devastating and even fatal consequences. It is well known that adolescent or teenage athletes will often under report symptoms of injuries, and concussions are no different. As a result, education of administrators, coaches, parents and students is the key for student safety.

If you think your child has suffered a concussion

Any student even suspected of suffering a concussion should be removed from the activity immediately. No student may return to activity after an apparent head injury or concussion, regardless of how mild it seems or how quickly symptoms clear, without medical clearance. Close observation of the student should continue for several hours. Mt. Blue Regional School District (RSU #9) requires the consistent and uniform implementation of well-established return to activity concussion guidelines that have been

recommended for several years and reflected in Board policy:

- Any student suspected of having sustained a concussion or other head injury during a school- sponsored activity including but not limited to competition, practice or scrimmage, must be removed from the activity immediately . . .
- No student will be permitted to return to the activity or to participate in any other school- sponsored activity on the day of the suspected concussion.
- Any student who is suspected of having sustained a concussion or other head injury shall be prohibited from further participation in school-sponsored activities until he/she has been evaluated and received written medical clearance to do so from a licensed health care provider who is qualified and trained in concussion management.

You should also inform your child's school if you think that your child may have a concussion. Remember it's better to miss one activity than miss the whole season. And when in doubt, the student sits out.

For current and up-to-date information on concussions go to:
